

SHORT PAKS™

Our Short Pak™ combines a card and key tag with our patented attached label

Each Short Pak™ comes with a full-sized membership card and one key tag for an additional family member. For the merchant's use, we have attached a bar coded label (the Data Guard Security System™).

Just attach the matching bar coded label to your customer's completed application form and instantly issue a Short Pak™ to your customer. This unique system ensures data integrity and accuracy of your growing database. It eliminates any mistakes caused by writing account numbers on applications and the cost of mailing a card to your customer.

Vanguard's Short Pak™ combines all of the benefits found in our Cards and Key Tags. You receive free advertising for your stores, an optional key registration service, an exceptional first time scan rate, instant issuance and lasting durability!

SHORT PAKS™

- Durable & waterproof
- Last up to ten years
- No cracking or peeling
- Standard true 30 mil thickness
- Options:
 - Signature Panel
